EDUCATION

Bachelor Of Technology in Artificial intelligence & Data science

Oct 2022 - May 2026

Dhanalakshmi College of Engineering, Chennai

- CGPA - 7.71
- Relevant Coursework - Data Structures, Operating Systems, DBMS, Data Science, AI&ML Models

HSC – State Board - Shri Natesan Vidyasala, Chennai | 2022 | 64%

SSLC – State Board- Shri Natesan Vidyasala, Chennai | 2020 | 61%

INTERNSHIP EXPERIENCE

Data Science Intern, Iqubit Consulting LLP

Jan 2026 - Mar 2026

- Developed and supported an **Advanced Intelligent Document Processing (IDP) system** using Generative AI.
- Worked with data preprocessing, document classification, information extraction, and AI-powered automation techniques.
- Applied data science concepts, machine learning techniques, and Generative AI models to improve document understanding workflows.
- Collaborated in an agile environment, delivering assigned tasks on time and maintaining high-quality standards.

PROJECTS

Smart Career Counselor Agent

A Streamlit-based AI-powered career guidance tool that analyzes resumes, quizzes user interests, and recommends suitable career paths.

- Resume parsing to extract skills and experience
- Career recommendation engine using custom logic
- Modular architecture with components for UI, data handling, and recommendation logic

Tech Stack: Python, Streamlit, NLP, Resume Parsing

Flask DevOps App

A containerized Flask application designed for DevOps practice, CI/CD integration, and cloud deployment.

- Simple RESTful API built with Flask
- Ideal for testing CI/CD pipelines and cloud hosting workflows.

Tech Stack: Python, Flask, Docker

Personal Portfolio Website

A responsive and visually appealing personal portfolio showcasing projects, skills, and contact information.

- Clean UI with sections for About, Projects, Resume, and Contact
- Built to highlight technical and creative strengths.

Tech Stack: HTML, CSS, JavaScript

TECHNICAL SKILLS

- Cloud platforms
- Machine Learning
- Software development
- Data analysis (Data Cleaning & Preprocessing)
- Full-Stack Development
- AI Tools and Framework (Gen AI, LLMs,NLP)
- Devops (Git,Docker,AWS fundamentals)
- Application Engineering

ADDITIONAL SKILLS/INTERESTS

- Completed an internship in UI/UX Design, gaining hands-on experience in user research, wireframing, and prototyping.
- Technical Proficiencies:** Prompt Engineering, MySQL, Data Visualization tools, Debugging.
- Languages:** English (Fluent), Tamil (Native), Marathi (Conversational).
- Blogging, Freelancing, Exploring Emerging AI Technologies, Building Personal Projects
